The Besen Group Hosts Private LTE Seminar at 2019 “MWC Los Angeles, in Partnership with CTIA”

Washington, D.C., September 4, 2019 (PRWEB) – The Besen Group, an international mobile data industry management consulting practice headquartered in the Washington DC area, with representatives in Paris and Tokyo, will host a private LTE seminar at the 2019 MWC Los Angeles, in partnership with CTIA. The seminar will take place from 2 – 5 p.m. on Tuesday, October 22 at the Los Angeles Convention Center.

MWC19 Los Angeles is a must-attend industry event where leaders, innovators and business professionals, from the mobile ecosystem and its adjacent sectors convene to explore the era of Intelligent Connectivity. The Besen Group’s private LTE seminar is dedicated to enterprises, mobile operators, cable operators, satellite operators to help with launching private LTE and 5G private networks in licensed, shared and unlicensed spectrum in the US.

“We are planning to have the most comprehensive private LTE seminar in North America at MWC19 Los Angeles. Our seminar is by invitation only and exclusively for enterprises who are considering private LTE solutions. We encourage all vendors and operators who are interested in attending our event to consider our sponsorship packages in order to attend, speak and network with enterprises,” said Alex Besen, Founder and CEO of The Besen Group LLC.

In the seminar, we will answer the following key questions:

- How can an enterprise launch a private LTE service?
- How can a mobile operator launch a private LTE service?
- How can a cable operator launch a private LTE service?
- How can a satellite operator launch a private LTE service?
- Which spectrum bands are ideal for a private LTE network?
- How to develop a comprehensive private LTE business case?
- What are key Capex and Opex assumptions for the private LTE business case?
- How to select the small cell vendor and Managed Service Provider?
- Which business model is the most appropriate for a private LTE network?
- How to dimension small cells for outdoor and indoor private LTE network?
- How to select the EPC vendor for private LTE network?
- How to select the SAS operator for private LTE network?
- What are challenges with private LTE networks?
- What are key applications for private LTE networks?
- Which vendor provides the total turnkey private LTE solution?
